Dear Peter

RE: Testimonial

It has been a great pleasure working with you on the many projects spanning the last 12 years.

With over 10 successful projects ranging from single tenant design and construct buildings to full line supermarket based shopping centres, the journey has been memorable and in the end all projects have been delivered to the prospective clients on time ,within budget and finished to the highest of levels.

I have personally grown as an agent/business owner/investor/developer with the knowledge and guidance you have shared along the way.

Your engaging style and creativity saw us connect very quickly and this set the tone and foundation for a successful on-going relationship delivering first class properties to the market.

I wish you continued success and look forward to sharing in many more.

Best wishes,

Nicholas Brown
